The Rainbird label takes strategy gaming well into the 90s with the uncanny Midwinter. And there's plenty more where this came from.

The Football Player Of The 80s Award goes to Kick Off, leaving forthcoming Player Manager and Kick Off II to battle it out for the honours in the 90s.

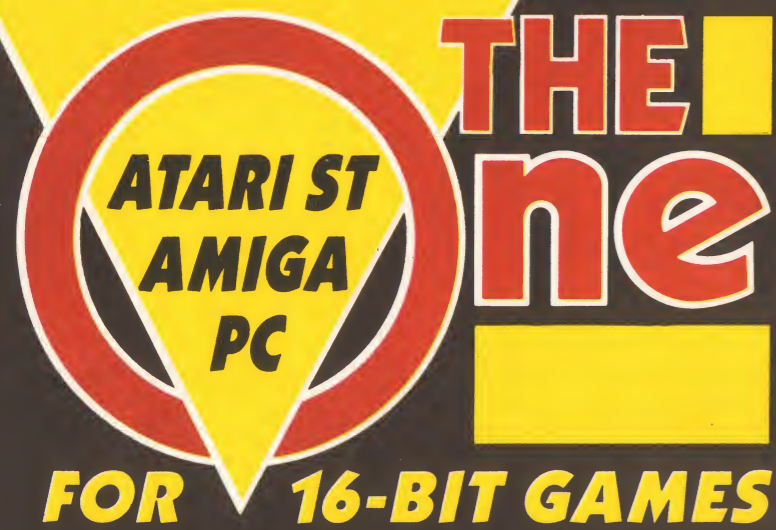

Having captured the hearts of racers in the 80s, the French company will undoubtedly do the same with its equally racey alternatives in the 90s, starting with Wild Streets.

# 1990 YEAR PLANNER

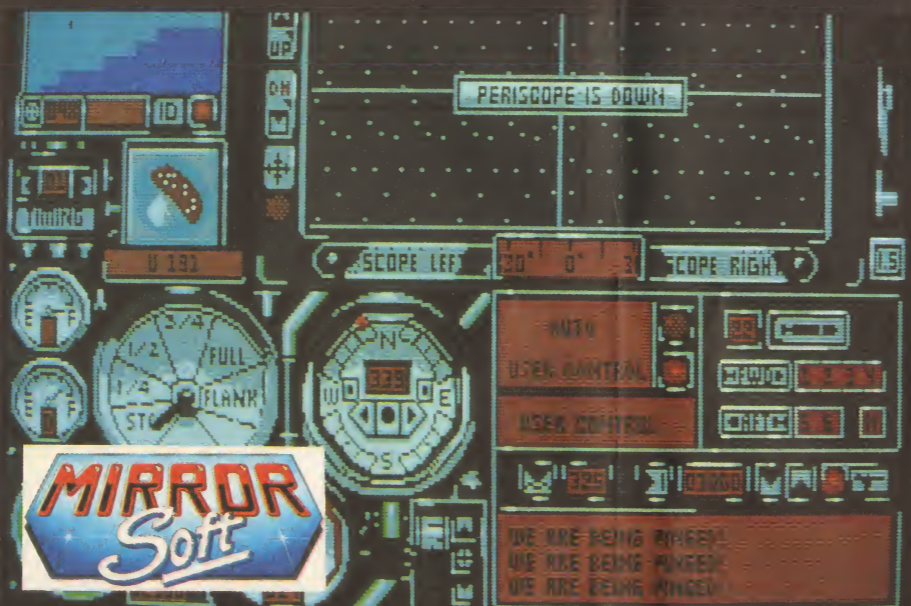

NOTES

Now you know where to go for a competent blend of simulation accuracy and arcade-style exhilaration... here's a boy-oh-boy racer entitled The Cycles.

The distinctive silhouetted fantasy thrills of Blade Warrior are typical of the exciting and versatile nature of this label.

Always one for games with plenty of depth. This is Nova Logic's Wolf Pack, a quality combination of submarine simulation and war-time action.

Contemporary platform playability in The Seven Gates Of Jambala – just some of the fun to come from Grandstream's Thalion label.

Taito's Ninja Warriors – the shape of many quality coin-op conversions to bolt from Virgin Mastertronic's stable.

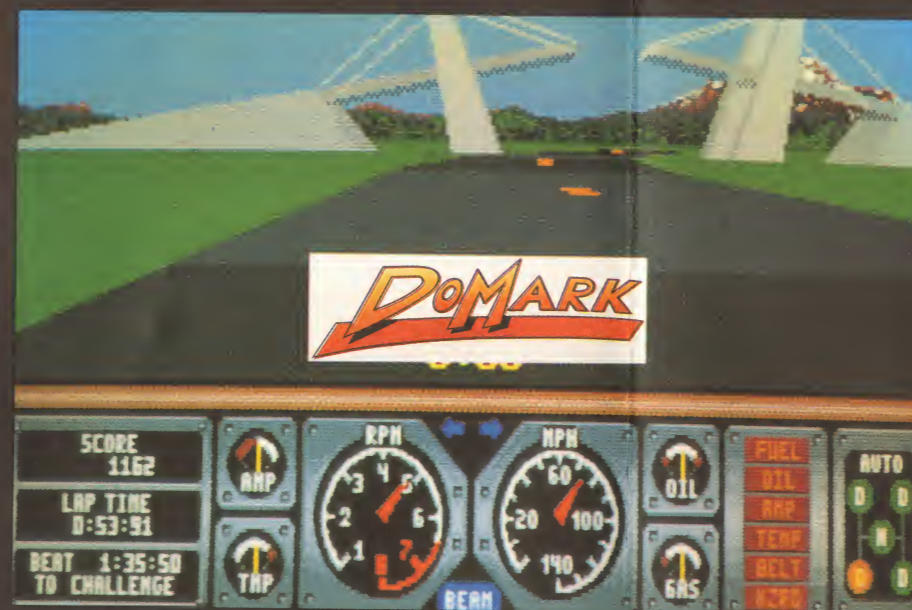

The Rainbird label takes strategy gaming well into the 90s with the uncanny Midwinter. And there's plenty more where this came from.

Always one for games with plenty of depth. This is Nova Logic's Wolf Pack, a quality combination of submarine simulation and war-time action.

Innovation and stimulation: two traits associated with all Hewson software – like the visually splendid Stormlord. Watch out for Paradroid 90.

Hard Drivin'. Like all home conversions of Tengen games, the flavour of the arcade original has been accurately reproduced. Look out for further exciting releases, including Escape From The Planet Of The Robot Monsters.
